August 2022

Premier Club Members,

It seems like the hot weather just keeps right on coming! I guess that's why these days are called "the dog days of summer." According to Old Farmer's Almanac, the dog days are supposed to end August 11. What do you think the possibility of that is? Probably slim and none! I know I complain about the cold weather too but I would just like to have it a little bit cooler. I know - just wait. This is Nebraska and the weather will change soon. Just not soon enough!

I want to thank Dr. Tom Bragg and Barbi Hayes for telling us all about Glacier Creek Preserve. Their presentation was very informative! It was wonderful to learn things about the great preserve and it being so close to us. It's nice to know that anyone can visit the preserve from dawn until dusk seven days a week. If you missed this presentation, you missed a good one! If you would like to learn more about Glacier Creek Preserve go to:

Our next meeting will be August 11 at 9:30 at St. John's Fellowship Hall. Our speaker will be Bennington's Mayor Zac Johns. Zac was elected mayor of Bennington in November 2020 after previously serving on the City Council. There are a lot of things that are happening these days, not just in Bennington but the surrounding area also. Be sure to come to the meeting to hear what they are directly from the Mayor.

The first day of school is August 17! Where has the summer gone? It seems not that long ago the kids were starting their summer vacation. Now they have to go back. I'm sure they feel like the vacation was way too short! We need to be aware of kids walking and riding their bikes to school. And then there are also the older ones who are driving cars! There are a whole lot more kids to be aware of with 8 schools within the Bennington School District. Just be alert and proceed with caution!

Stay cool and we will see you on August 11!

Dee Clark
