March 2024

Premier Club Members,

It seems like winter has left us and spring has arrived. I have seen some crocus blooming already. We probably better not get too used to this spring-like weather though. We do live in Nebraska and it can change fast as we have seen lately. I will continue to enjoy all of the warmer temperatures that we may be given. And try not to complain too much if we have some colder days. I just hope that there aren't too many of the cold ones to come and the snow stays away!

I want to thank Drs. Aaron Plas and Matt Blomenkamp for speaking at our February meeting. They did a great job of explaining the school bond issue. If you are a registered voter, you should have received your mail-in ballot to help decide this issue. Please be sure to return your ballot to the Douglas County Election Commission. You can either drop it off at any of the sites listed on their website or mail it in. Make sure that you sign the back of the envelope!

Our next meeting will be on March 14 at 9:30 at St. John's Lutheran Church fellowship hall. Our speaker will be Terry Glover from the Nebraska Chapter of the Alzheimer's Association. The topic she is presenting is *Know the 10 Warning Signs*. This is not a subject that is an easy one but one that seems to affect more and more of us. Please plan to attend!

If you don't already receive this newsletter by email, I would like for you to consider doing so. The email that you use to receive the newsletter will ONLY be used for that purpose. I3 Bank will NOT use it for any other reason unless you give them permission to do so. The cost of postage is ever increasing. This is one way that we can help to save money and paper. You can either send your email to me at [dlclark410@gmail.com](mailto:dlclark410@gmail.com) and I will get it to the right person or you can send it to [bdavison@i3.bank](mailto:bdavison@i3.bank). (Becky is the one who makes sure the newsletter gets sent out.)

I'll plan to see you March 14 unless a freak snowstorm should happen! Take care!

*Dee*
